# FORESIGHT QUARTERLY

The Foresight Autonomous Group Newsletter

## WELCOME TO OUR NEWSLETTER

Learn about the latest developments of Foresight Automotive, Eye-Net Mobile and Rail Vision in the first quarter of 2021. Read the latest press releases, highlights from the media, insights from our new technical blog, and other activities of the group.

## PRESS RELEASES

### QUADSIGHT SALE TO STEREO SYSTEM MANUFACTURER

Foresight sold a prototype of its QuadSight® four-camera vision system to the American division of a leading global manufacturer of automotive stereo vision systems. The Japanese manufacturer, which is a Tier One supplier, will evaluate Foresight's thermal stereo capabilities for possible enhancement of its current visible-light stereo system capabilities.

### PATENT APPROVAL IN CHINA

Foresight received a notice of allowance from the Chinese Patent Office for its patent "running vehicle alerting system and method." The patented technology involves a running vehicle alerting system which detects traffic lights or traffic signs. The technology also received a notice of allowance from the U.S. Patent and Trademark Office in April 2019.

## FROM THE INDUSTRY

Proud to be included in VSI Labs' recent review of several vision-based companies, highlighting Foresight's unique automatic calibration module which allows stereo camera separation.

**“BY USING BOTH VISIBLE-LIGHT AND THERMAL CAMERAS, FORESIGHT’S STEREO SYSTEM CAPABILITIES ALLOW OBSTACLE DETECTION IN DIFFERENT HARSH WEATHER AND LIGHTING CONDITIONS, WHERE LIDAR PERFORMANCE IS COMPROMISED.”**

*VSI Labs "Cameras Taking a Step into Making the Unseen Visible"*

## FROM THE MEDIA

Eye-Net was featured in TechCrunch article highlighting technologies in the micromobility and motorcycle markets, presented by start-ups at the CES 2021 virtual conference.
